

2026/2027 UNDERGRADUATE SCHOLARSHIP APPLICATION

Application & Attachments Must be Postmarked by
March 31, 2026

BACKGROUND

The Association of State Dam Safety Officials (ASDSO) was founded in 1984 with these stated goals:

- To provide a forum for the exchange of ideas and experiences on dam safety issues.
- To foster interstate and inter-governmental cooperation in dam safety.
- To provide information and assistance to state dam safety programs and to the ASDSO membership.
- To provide representation of state interests before Congress and federal agencies responsible for dam safety.
- To improve the efficiency and effectiveness of state dam safety programs.

Recognizing that one of the keys to achieving these goals is the development of well-trained technical persons interested in one of the many scientific fields related to dam safety, ASDSO established its Dam Safety Scholarship Program in 1992.

THE SCHOLARSHIPS

Scholarships will be awarded for the **2026/2027** school year. At least one scholarship will be awarded, with up to \$20,000 in scholarship funds available. A travel stipend to the ASDSO Annual Conference may also be awarded in addition to the scholarship funds. Successful recipients must be U.S. citizens or lawful permanent residents and enrolled full-time at the **junior or senior** level (during the 2026/2027 school year) in an accredited civil engineering program, or a related field as determined by ASDSO, and must demonstrate an interest in pursuing a career in hydraulics, hydrology or geotechnical disciplines, or in another discipline related to the design, construction, and operation of dams. Undergraduate students planning to graduate in May/December 2027 or in May/December 2028 will be eligible for the 2026 scholarship.

Minimum Criteria - Applicants must have a cumulative grade point average of 2.5 for the first two years (for juniors) or three years (for seniors) of college, and be recommended by their academic advisor. They must also submit a typewritten essay on the topic: Describe your experience and interest in engineering. Where do you see yourself post-graduation?

Basis for Award - The basis for selection will generally follow these guidelines:

- Academic Scholarship
- Work Experience/Activities
- Essay
- Letters of Recommendation
- Financial Need

ASDSO will be the final determiner in each instance as to which applicants will be recipients of a scholarship. A student may only receive the scholarship once. Prior recipients of the ASDSO scholarship may not apply for the scholarship again. Applicants who do not receive the ASDSO scholarship in their junior year are encouraged to reapply for their senior year.

Final Application Date—Application forms can be obtained by writing to ASDSO at the address below and must be postmarked no later than **March 31, 2026**. Successful candidates will be announced by **July 2026**.
